The Ed-Fi Student Health domain is designed to hold student health data that schools maintain and are appropriate to load into the ODS, and Ed-Fi specifically say...
2026-06-11 10:04	U07M86DHPDM	good-feedback	<@U0AK7KP5MK6> <i>*Does Ed-Fi store IEP/504-related health accommodations?*</i>	Yes. Ed-Fi can represent both <i>*Section 504 accommodations*</i> and <i>*IEP-related special education records*</i> , but it does so in the education data model rather than as a clinical health record system.< https://docs.ed-fi.org...
2026-06-10 10:32	U03HMGRRA0L	good-feedback	Question: isn't SchoolYear a required resource? I want to respond to this que...	Yes — in Ed-Fi, <i>*SchoolYear*</i> is a common required concept for many request contexts*, but it is <i>*not universally required in every payload*</i> . What the state agency is describing is a real data-integrity gap: if the plat...
2026-06-08 16:19	UA0CMFN9G	good-feedback	Can you point me to documentation on custom authorization in ODS/API 7.3?	Yes — the best starting point is the Ed-Fi docs on <i>*custom view-based authorization*</i> and <i>*API claim sets/resources*</i> , since those explain how ODS/API 7.3 supports custom authorization strategies and how to assign them ...

Executive Notes

- 1. Engagement remains steady with meaningful repeat usage patterns.
- 2. Weekly trend monitoring should remain focused on error-rate movement and interaction growth.
- 3. Feedback-heavy users and high-interaction users can guide targeted support and training.
