

FIONA USAGE ANALYTICS

Executive Report

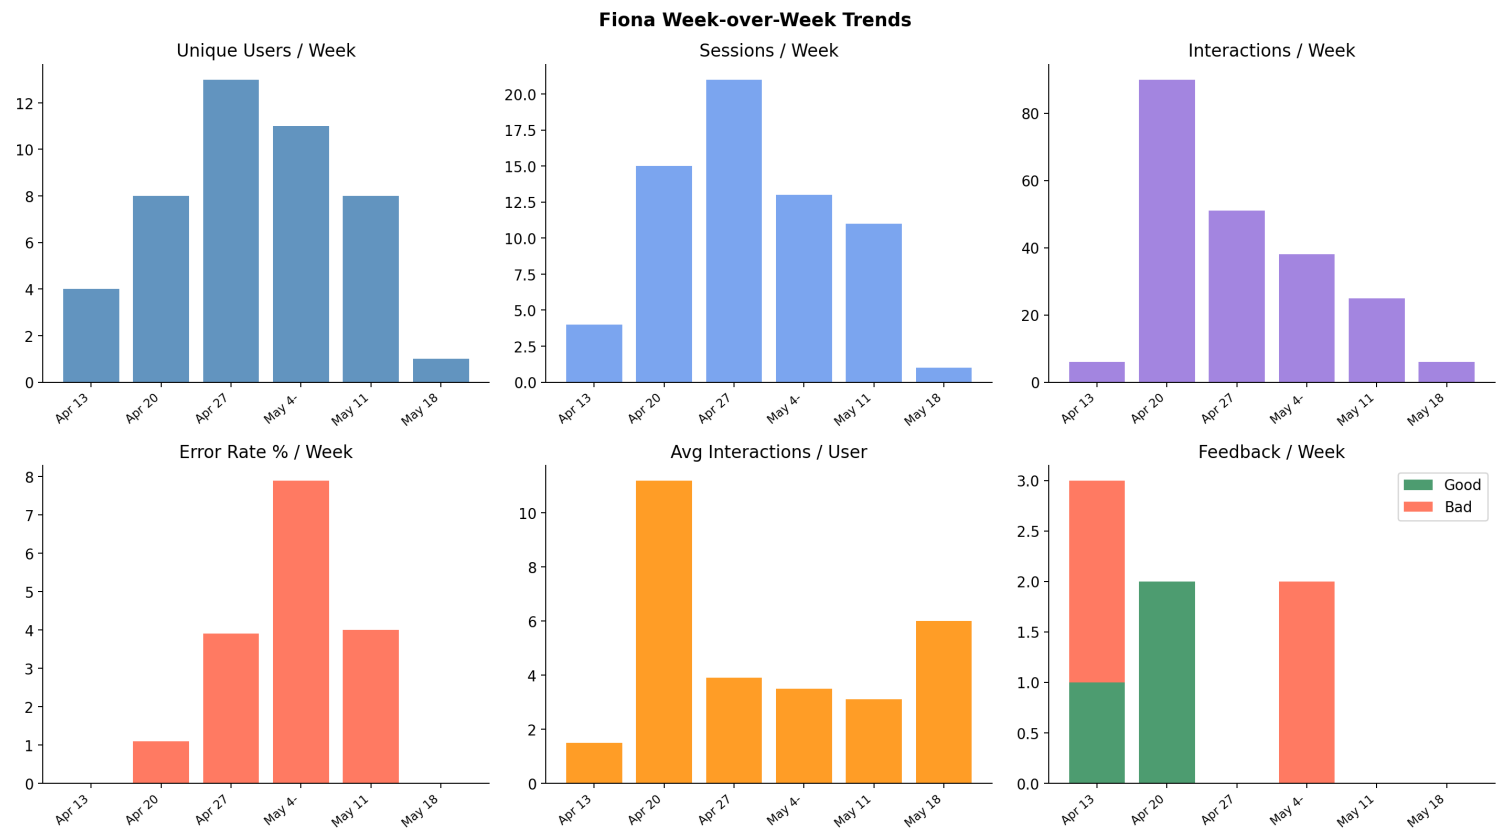

Generated: May 20, 2026 at 10:12 AM

Executive Summary

This document mirrors the notebook sections so executive stakeholders can review trend, usage, reliability, and feedback outcomes in one place.

Metric	Value
Total Interactions	216
Unique Users	23
Total Sessions	51
Average Interactions per User	9.4
System Error Rate	3.2%
Rate-Limited Events	0
Positive Feedback	73.9%

Week-over-Week Longitudinal Trends

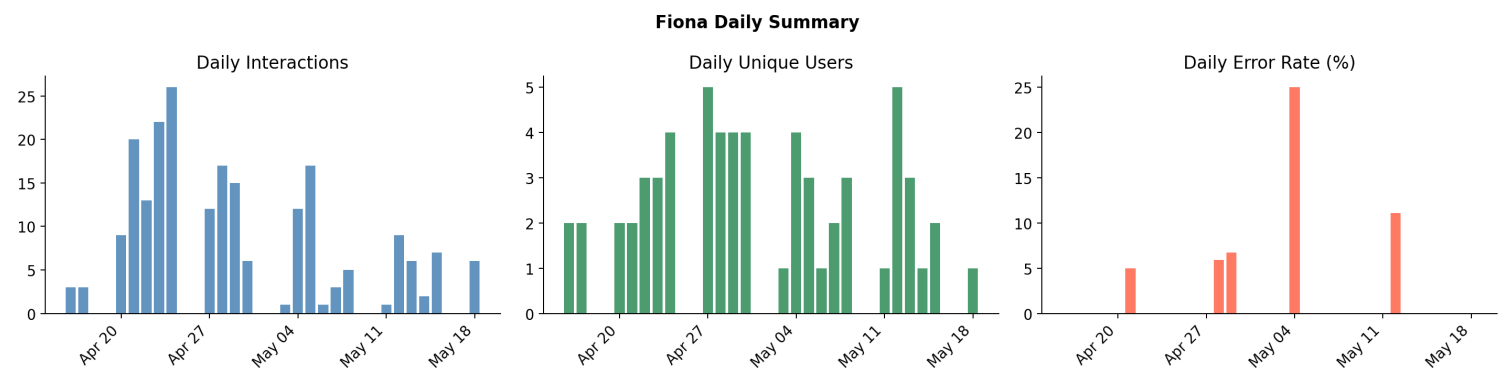

week	users	sessions	interactions	errors	err%	good_fb	bad_fb	pos%	avg/user	fb_resp%	users_wow%	int_wow%	err_wow_pp
Apr 13-19, 2026	4	4	6	0	0.0	1	2	33.3	1.5	75.0			
Apr 20-26, 2026	8	15	90	1	1.1	2	0	100.0	11.2	13.3	100.0	1400.0	1.1
Apr 27-3, 2026	13	21	51	2	3.9	0	0	0.0	3.9	0.0	62.5	-43.3	2.8
May 4-10, 2026	11	13	38	3	7.9	0	2	0.0	3.5	15.4	-15.4	-25.5	4.0
May 11-17, 2026	8	11	25	1	4.0	0	0	0.0	3.1	0.0	-27.3	-34.2	-3.9
May 18-24, 2026	1	1	6	0	0.0	0	0	0.0	6.0	0.0	-87.5	-76.0	-4.0

Weekly Snapshots

Feedback Details

Feedback Distribution

timestamp	userId	value	userMessage	botResponse
2026-05-05 10:26	U8MP4NTLG	bad-feedback	In 6.2 api, the oauth did not require a year, but the datamangement did	*Yes, that's correct for v6.2* — OAuth token requests did *not* require the year segment, while data management endpoints *did* (e.g., `/data/v3/schools` vs `/2027/data/v3/schools`)<https://docs.ed-fi.org/reference/od...
2026-05-04 16:29	U0ARWT706RY	bad-feedback	What settings would effect the size of the field? It is a core field with a ...	Thank you for that detail—`varbinary(8000)` is the constraint here. That's an 8KB hard limit on the `_AggregateData_` field. *What affects the field size:*
2026-04-24 16:57	UA0CMFN9G	good-feedback	Please create a table summarizing the new entities in Data SStandard 6.0	1. *Database column definition*: Your ODS schema defines `Agg...  These new entities primarily decouple demographics and contact information from `StudentEducationOrganizationAssociation` into dedicated entities for cleaner modeling and reduced redundancy<https://docs.ed-fi.org/blog...
2026-04-24 16:55	UA0CMFN9G	good-feedback	Provide a table listing the Ed-Fi certifications, with certification name in ...	This message contains interactive elements.
2026-04-16 17:48	UA0CMFN9G	bad-feedback	tell me about data standard 6.1	*Ed-Fi Data Standard 6.1* is a version of the Ed-Fi education data model used with the ODS/API, released prior to ODS/API 6.2 (which launched on March 21, 2024).<https://docs.ed-fi.org/reference/metaed/ide-user-guide/...

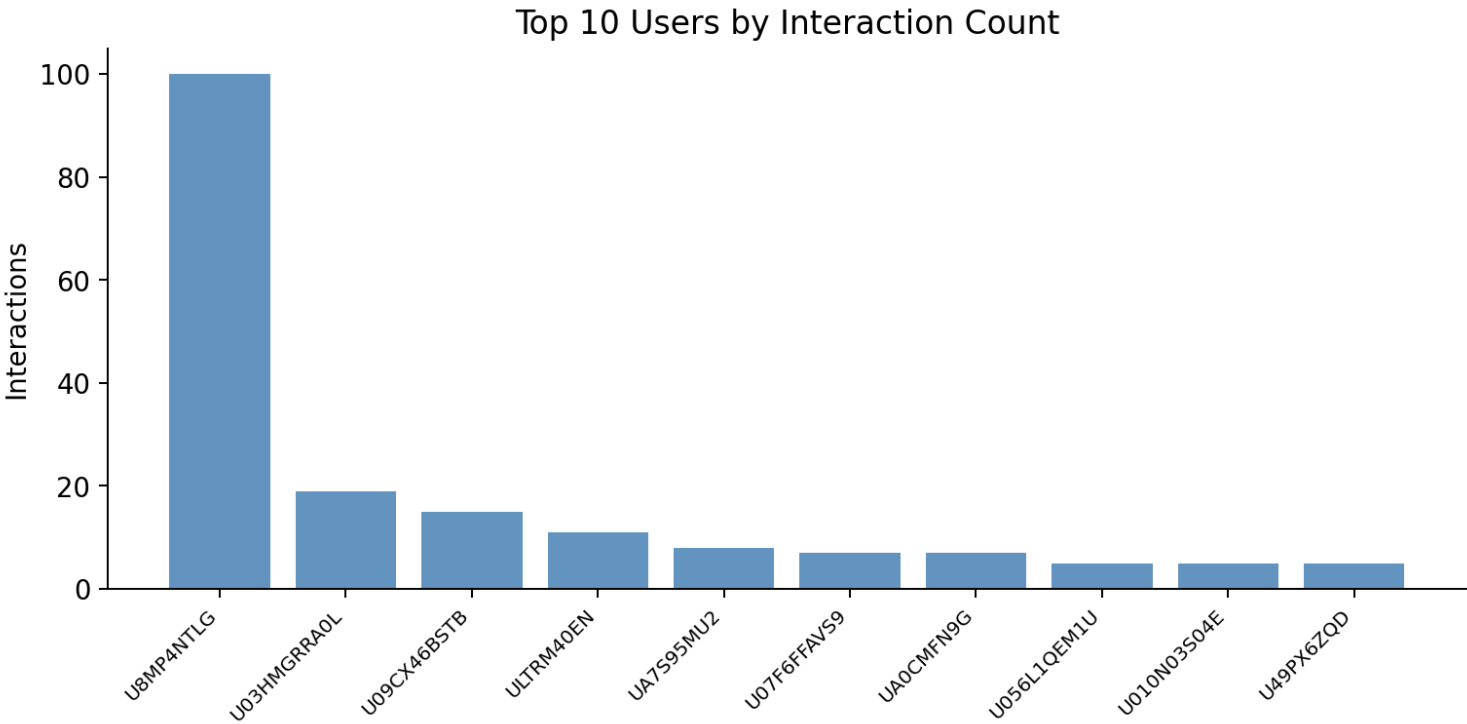

timestamp	userId	value	userMessage	botResponse
2026-04-16 17:47	U07F6FFAVS9	good-feedback	How do I set up ODS/API version 7.3?	To set up *Ed-Fi ODS/API v7.3*, you have two main installation approaches: binary installation (recommended if you don't need to customize the source code) or source code installation (for development)<https://docs.ed...
2026-04-13 16:31	ULTRM40EN	bad-feedback	can I run API version 7.1 without OdsConnectionStringEncryptionKey	*Yes, you can run Ed-Fi API 7.1 without manually specifying the `OdsConnectionStringEncryptionKey`. * By default, the installer automatically generates an encryption key using the `New-AESKey` function from the `Instal...
2026-04-08 11:49	U056L1QEM1U	bad-feedback	Is nhibernate used in edfi one roster	I'm not certain about NHibernate's role in Ed-Fi One Roster specifically. While NHibernate is a popular .NET ORM (Object-Relational Mapping) framework that _could_ be used in Ed-Fi implementations, I don't have reliab...
2026-04-06 08:40	U07M86DHPDM	good-feedback	<@U0AK7KP5MK6> Describe the key changes to StudentEducationOrganiza tionAssoci...	*In Ed-Fi Data Standard 6.0, the StudentEducationOrganizationAssociation (SEOA) was significantly simplified by decoupling demographics and contact information into dedicated entities, making it a streamlined associat...
2026-04-03 15:55	UA0CMFN9G	good-feedback	Describe the key changes to StudentE ducationOrganizationAssociation in Data S...	*StudentEducationOrganizationAssociation (SEOA) in Data Standard 6.0 is significantly simplified as a breaking change from v5.2, with demographics, identification codes, and contact info decoupled into dedicated entit...
2026-04-03 15:54	UA0CMFN9G	bad-feedback	How do I change my JSON payloads when writing student demographics with Data ...	To update your JSON payloads for writing *studentDemographic* resources in Ed-Fi Data Standard v6, focus on these key changes from prior versions (e.g., v5). Data Standard 6 introduces refinements for better data qual...
2026-03-30 16:02	UA0CMFN9G	good-feedback	Where can I find the Ed-Fi Technology roadmap? Questioner is Stephen Fuqua	The *Ed-Fi Technology Roadmap* is detailed across several key pages in the official Ed-Fi documentation, with the most comprehensive overview in the *Supported Versions* and *API FAQ* sections.[3][4] • Primary roadmap...
2026-03-27 12:48	U49PX6ZQD	good-feedback	Do we have some examples for performanceevaluation -> evaluation -> eva...	No direct JSON or XML examples of the full *PerformanceEvaluation* → *Evaluation* → *EvaluationObjective* → *EvaluationElement* hierarchy appear in the available documentation, but the structure is well-defined as a r...
2026-03-27 07:46	U03NN8M6R39	good-feedback	<@U0AK7KP5MK6>, can you provide me an introduction email to a potenial new Ed...	Here's a customizable introduction email template for reaching out to a potential new Ed-Fi customer. Feel free to personalize it with specifics like their name, role, and your details: *Subject:* Discover How Ed-Fi C...

Executive Notes

- 1. Engagement remains steady with meaningful repeat usage patterns.
- 2. Weekly trend monitoring should remain focused on error-rate movement and interaction growth.
- 3. Feedback-heavy users and high-interaction users can guide targeted support and training.
